

Portfolio — Wireframes

Low-fidelity layout & navigation. Guest + Admin. No color, no styling — structure only.

Step 2 deliverable · Companion to the content schema and design specs (Parts 1 & 2)

Reading the boxes:

[Button] action input field  image/media slot ≡ drag handle
▼ dropdown ●/○ toggle/radio « » repeats/more dashed = hidden/draft state

These are intentionally plain. They lock *layout and flow* before any visual design (colors, fonts, motion) from the specs is applied.

A · GUEST SCREENS

G1 Home

/

Landing = guest view. Section order is admin-controlled. "Log in" opens a popup (G-Login).

Draft data rendered as guests will see it, inside preview chrome. Distinct from "View Live Site".

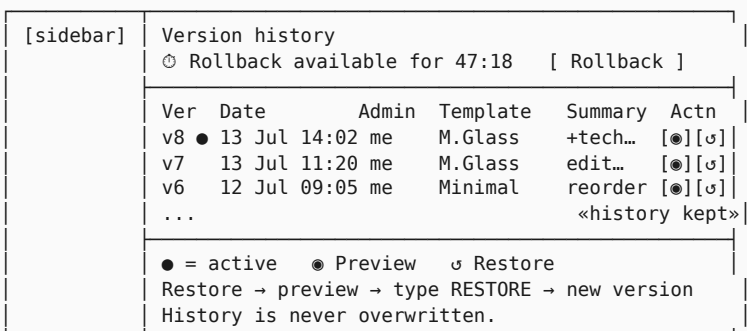

STEP 1 – Change summary

Review changes draft→v8
 + Technology added
 ‡ Featured moved above TL
 ✎ Hero heading edited
 – One project hidden
☐ I reviewed the preview
 and change summary
 [Cancel] [Continue]

STEP 2 – Typed confirm

⚠ This updates your public website.
 Type PUBLISH to confirm:
 [_____]
 [Cancel] [Publish]
 (disabled until = PUBLISH)

| publishing → progress
 (Continue disabled until checked) ▼ ✓ v8 live + rollback bar
 Same dialog pattern for ROLLBACK and RESTORE (different word).

C · NAVIGATION FLOWS

F1 Guest → Admin entry

Home (/) —[Log in popup]→ authenticate → /admin/dashboard
already logged in? navbar shows [Admin ▼] → Dashboard / View live / Log out
deep link to /admin/* while logged out → popup → back to that page

F2 Content → Public (publish pipeline)

Edit in admin → Save draft → Preview draft → Change summary
→ Confirm #1 (checkbox) → Confirm #2 (type PUBLISH) → Publish
→ new version stored → public site updates → 1-hour rollback timer

F3 Guest browsing

Home → About → Projects → Project detail → (GitHub/Demo/Related/Back)
Home → Timeline → linked Project detail
Home → Contact → message stored → appears in Admin ► Messages

Wireframes are deliberately uncolored and unstyled. Apply visual design (tokens, type, motion) from Design Spec Parts 1 & 2 only after this layout/flow is approved.
